

EARLY CHILDHOOD PLAY AREA

SAFETY AUDIT

Has your play area
been safety inspected to the
NZS5828:2015 Standard?

PLAY INSPECTION

A certified annual play inspection provides a yearly comprehensive audit check of your ECE Play Area by a certified RPII Inspector and ensures that any structural issues, worn or broken components, non-compliances and other safety hazards are assessed to NZS5828:2015 Standards and formally identified in an annual report.

This is an ideal working document for the B.O.T to identify any current issues before breakage and future maintenance and replacement.

WHAT'S INCLUDED

Playground Annual Safety and Compliance Audit

The Annual Playground Inspection establishes the overall level of safety and compliance, structural stability and surface condition for falling.

Our Inspectors are trained & certified to inspect and provide a comprehensive report to the RPII Register of Play Inspectors International, partnered with ROSPA Royal Society for the prevention of accidents.

Our comprehensive inspection report consists of all play equipment and surfacing onsite, followed by an electronic report that includes photos, risk assessment and recommendations for every finding.

The inspection report includes:

- ✓ NZS5828 / EN1176 Compliance Assessment
- ✓ Annual Main Inspection as per NZS5828:2015
- ✓ Entrapment Probes (head, neck, torso, leg & fingers)
- ✓ Photos, Risk Assessment and Recommendations
- ✓ General Health and Safety Hazards
- ✓ Wear and Tear / Sacrificial Parts
- ✓ Structural Stability
- ✓ Inspection of Play Equipment
- ✓ Inspection of Safety Surface

WHAT OUR CLIENTS SAY

Playsafe inspects playgrounds nationwide for Schools, Councils and ECE.

“

The Ministry recommended you to us, I can see why by the quality and detail of the report. It gives a clear indication on what needs to be done. These reports will be really valuable for all association staff.

Canterbury Playcentre Association

“

Thanks so much for your extremely comprehensive and useful report. Clearly it was much needed.
